JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

deaths (56 per 1,000 annual death rate) from all causes, including 1 from smallpox, 3 from pernicious fever, 5 from pneumonia, 2 from cirrhosis of the liver, and 1 from nephritis.

Two new cases of yellow fever were reported, 1 on May 31 and 1 on June 3.

Yellow fever during May, 1904.

During the month of May of the present year there were reported in the city of Veracruz only 5 cases of yellow fever, with 1 death; while during May of 1903 there were reported 46 cases, with 17 deaths.

NICARAGUA.

Report from Bluefields, fruit port.

Acting Assistant Surgeon Reilley reports as follows: Week ended May 28, 1904. Present officially estimated population, 4,000; 1 death; prevailing diseases, malarial fever and tuberculosis. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health were issued to the following-named vessels:

Date.	Vessel.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
May 23	Banan	17	0	0	0
24	Condor	16	18	0	0
26	Nicaragua	19	6	0	0

PANAMA.

Report from Colon—Inspection of vessels.

Surgeon Perry reports, May 30, as follows:

During the week ended May 28, 1904, the following vessels cleared for ports in the United States: American steamship *City of Washington*, for New York, May 26, with 68 crew and 45 passengers; British steamship *Senator*, for New Orleans, May 27, with 40 crew and 1 passenger; U. S. S. *Newark*, for San Juan, May 27; American schooner *Anna M. Stanmer*, for Pascagoula, May 23, with 8 crew and no passengers.

CORRECTION.

In the report entitled "A study of vital statistics as regards prevailing diseases and mortality of Colon, Republic of Panama, for the year 1903," published in Public Health Reports for March 18, 1904, page 470, heading No. 8, an annual "mortality" of 1,906 should read annual "morbidity."
